

ABSTRACT OF THE DISCLOSURE

In accordance with the present invention, there is a need to increase the flexibility and usefulness of the truck box with integrated motorcycle support and tie down through the use of the removable insert.

By reconfiguring the integrated motorcycle support area of the truck box with integrated motorcycle support and tie down from that of an integrated motorcycle support to that of a cavity for accepting removable inserts, we can not only regain the lost space, we can also greatly increase the flexibility and usefulness by providing an unlimited number of different removable inserts configured to assist and help in all ways.
